PROFESSIONAL SUMMARY

AI-focused SDE (2027) building distributed systems and AI-powered SaaS. Strong in Go, Java, and cloud-native architectures -with GSoC-adjacent open source contributions and a Top-25/1500 hackathon track record.

EDUCATION

Bachelor of Technology, CSE (AI & ML)	Exp. 2027
Lakshmi Narain College of Technology, Bhopal, MP 7.5 CGPA	
Diploma(Polytechnic) in Computer Science & Engineering	2023
Samrat Ashok Technological Institute, Vidisha, MP 7.2 CGPA	

EXPERIENCE

SDE Intern <i>Salesforce (via SmartBridge)</i>	May 2025 – Jul 2025
- Engineered custom CRM modules using Salesforce Apex and LWC, automating lead assignment and data validation workflows; reduced manual data entry effort by 40% - Designed Process Automation pipelines (Salesforce Flow) across 3 core CRM objects, enabling real-time trigger-based notifications and improving data accuracy across the sales pipeline. - Delivered 2 production releases within a 10-week Agile sprint cycle; earned specialist Superbadges for CRM Data Management and Process Automation.	
Open Source Contributor — DREAMS <i>University of Alaska</i>	Dec 2025 – Jan 2026
- Designed and merged a GitHub Actions CI/CD pipeline automating Phase-1 data integrity validation for a geoscience research workflow; cut manual QA time by 60% and ensured 100% reproducibility across all commits. - Authored unit tests across 4 validation stages; resolved pre-existing pipeline failures during code review, improving reliability for the research team.	

PROJECTS

VisionAI – Hybrid Road Safety & Driver Assistance Platform	Live Link GitHub Link
<i>Tech Stack: Next.js, React, TensorFlow.js, MediaPipe, Azure OpenAI, Supabase (PostgreSQL), REST APIs, Git</i>	
Built production SaaS preventing traffic fatalities via real-time AI monitoring using TensorFlow.js (<50ms edge inference) and Azure OpenAI. Implemented secure authentication, personalized dashboards, PostgreSQL RLS multi-tenancy, Stripe billing, 30fps WebGL/WASM processing, sub-200ms TTFB, and 99.7% reliable idempotent alert delivery via Nodemailer.	
Distributed Feature Flag Evaluation Engine	Github Link
<i>Tech Stack: Go, PostgreSQL, Kafka, Redis, Docker, GitHub Actions</i>	
Architected a Go feature-flag engine for microservice fleet control, using PostgreSQL WAL, Debezium, and Kafka CDC to achieve <2s propagation. Implemented consistent hashing and local SDK caching, reducing evaluation latency from 15ms to <0.5ms and supporting 43,000+ requests/sec via Redis caching.	
Cache Coherence Monitoring System	Github Link
<i>Tech Stack: Python, FastAPI, React.js, Redis, PostgreSQL, AWS (Lambda, DynamoDB, SQS, EventBridge), Groq LLM, Docker.</i>	
Architected an AI-driven Redis anomaly detection system via AWS Lambda, DynamoDB, and PGVector RAG, processing 100+ events/min. Delivered a fault-tolerant backend with 100% Pytest coverage across all edge cases, leveraging Groq LLMs to automate root-cause analysis and slash SLA diagnostic latency by 99%.	

TECHNICAL SKILLS

Languages: C, C++, Python, Java, JavaScript, TypeScript
Frameworks & Libraries: React.js, Next.js, TensorFlow.js, PyTorch, FastAPI, Tailwind CSS
AI / ML: LLMs, Embeddings, RAG, NLP, Computer Vision
Backend & Database: Spring Boot, Go (gRPC, Kafka), Supabase, Redis, REST APIs, PostgreSQL
DevOps: AWS (Lambda, DynamoDB, CloudWatch, EC2), CI/CD, Docker, Git, GitHub Actions, Unit Testing
Core Concepts: Distributed Systems, Data Structures and Algorithms, OOP, Concurrency, SDLC, CN, OS

ACHIEVEMENTS

- Grand Finalist** – Google Developer Group GGC Techsprint 2025 – Top 25 among 1500 Teams.
- Semi Finalist** - Economic Times AI Hackathon (National-Level).
- Solved **400+ Problems** (250+ on leetcode), (150+ on Geeksforgeeks, Codeforces and HackerRank).
- Achieved **Ranger Rank** on Salesforce Trailhead — 23 Superbadges & 87+ badges.

LEADERSHIP

Team Lead — Team Variable-X 2025 – Present
Led cross-functional teams across 3 major hackathons, earning Top 25/1,500+, National Semi-Finalist, and International Qualifier recognition.

CERTIFICATIONS

- Salesforce Developer With Agentblazer Champion – Salesforce & SmartBridge
- Oracle Certified: OCI Generative AI & Data Science Professional – Oracle
